15, Ramat Crescent Ogudu. (Ogudu GRA)

# TRAINING OVERVIEW

The Mainstreaming children with Cerebral Palsy workshop 5 was attended by 20 participants ranging from parents, General Education teachers, Home Tutors, school owners and even a nurse.

The training was facilitated by two people- Tobiloba Ajayi of the Let Cerebral Palsy Kids Learn Foundation and Rhoda Odigboh of the Learning Craft.

The Participants left with an understanding of Cerebral palsy and how it may affect learning methods. They learned how to differentiate lessons and assessments in the classroom and even how to request for accommodations and modifications during high stakes testing such as Common Entrance and the West African Senior Secondary Certificate Examination.

A major highlight of the day was the practical session on creating Individualized Education Plans for the children with cerebral Palsy and how it supports inclusion in the classroom. The participants were armed with both knowledge and skill.

The participants learned Universal Design Lesson and designed a lesson using the UDL template.

All participants also left with pencil grips and chunky pencils as examples of simple tools that promote Inclusion in the classroom.

# OUR NUMBERS

**AFRICAN CENTRE**  
FOR DEVELOPMENT AND RESEARCH  
Creating a space that embraces diversity

## 20

### TOTAL PARTICIPANTS

---

There were a total of 20 participants in attendance. This class saw an increase in the number of parents who attended the training over previous classes

## 50% PARTICIPANTS

### SPONSORED BY ACDR

---
